Subject: Label Amendment: Emerging Viral Pathogens Claim
Product Name: Benefect Botanical Daily Cleaner Disinfectant Towlette
EPA Registration Number: 84683-4
Application Date: 03/10/2020
Decision Number: 561071

Dear Ms. Perkins:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Because you have opted to add statements pertaining to emerging viral pathogens to your label as described in the August 19, 2016, Guidance to Registrants: Process For Making Claims Against Emerging Viral Pathogens Not On EPA-Registered Disinfectant Labels ("Guidance"), https://www.epa.gov/sites/production/files/2016-09/documents/emerging_viral_pathogen_program_guidance_final_8_19_16_001_0.pdf, you are subject to the following additional terms of registration:

1. You may make statements pertaining to emerging viral pathogens only through the following communications outlets: technical literature distributed exclusively to health care facilities, physicians, nurses and public health officials, "1-800" consumer information services, social media sites and company websites (non-label related). These statements shall not appear on marketed (final print) product labels.
2. Your statements pertaining to emerging viral pathogens must adhere to the format approved on the Agency-accepted master label.

3. You may make statements pertaining to emerging viral pathogens only upon a disease outbreak that meets all the following criteria:
 - a. The causative organism must be a virus that causes an infectious disease that has appeared in a human or animal population in the U.S. for the first time, or that may have existed previously but is rapidly increasing in incidence or geographic range.
 - i. For human disease, the outbreak is listed in one of the following Centers for Disease Control (CDC) publications:
 - A. CDC Current Outbreak List for “U.S. Based Outbreaks” (www.cdc.gov/outbreaks),
 - B. CDC Current Outbreak List for “Outbreaks Affecting International Travelers” with an “Alert” or “Advisory” classification (www.cdc.gov/outbreaks) (also released through the CDC’s Health Alert Network (HAN) notification process)
 - C. Healthcare-Associated Infections (HAIs) Outbreaks and Patient Notifications page (www.cdc.gov/hai/outbreaks)
 - ii. For animal disease, the outbreak is identified as an infectious disease outbreak in animals within the U.S. on the World Organization for Animal Health (OIE) Weekly Disease Information page (www.oie.int/wahis_2/public/wahid.php/Diseaseinformation/WI).
 - A. The CDC or OIE has identified the taxonomy, including the viral family and/or species, of the pathogen and provides notice to the public of the identity of the emerging virus that is responsible for an infectious disease outbreak. Based on the taxonomy of the outbreak pathogen identified by the CDC or OEI, the pathogen's viral subgroup is enveloped.
 - B. The virus can be transmitted via environmental surfaces (non-vector transmission), and environmental surface disinfection has been recommended by the CDC, OIE or EPA to control the spread of the pathogen.
4. You may begin communicating statements pertaining to emerging viral pathogens only upon CDC or OIE’s publication per term 3.a. of an outbreak of an emerging viral pathogen meeting all of the criteria of term 3. You must cease and remove all such non-label communications intended for consumers no later than 24 months after the original publication of the outbreak per term 3.a., unless the Agency issue written guidance to the contrary due to continued public health concerns. The emerging pathogen claim language may remain on the master label.
5. Terms from points 1 through 4 above shall become immediately void and ineffective if registration for use against Rhinovirus Type 37 is suspended or cancelled or no longer meets the criteria for a disinfectant claim (see EPA Product Performance Test Guideline

810.2200). In addition, terms B.1 through B.4 above shall become immediately void and ineffective upon your receipt of evidence of ineffectiveness against any pathogen in a less-resistant Spaulding category.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, you may contact the disinfectants list at disinfectantslist@epa.gov.

Sincerely,

John Hebert, Chief
Regulatory Management Branch 1
Antimicrobials Division (7510P)
Office of Pesticide Programs

{MASTER LABEL}

{All text in brackets [xxx] is optional & may or may not be included on a printed label.}

{All text in braces {xxx} is administrative communication & will not appear on a printed label.}

*Kills [over] 99.9[9] % of [household] germs[,] [(]specifically[,][:] *Pseudomonas aeruginosa*, *Salmonella enterica*, *Staphylococcus aureus*, *Methicillin Resistant S. Aureus (MRSA)*, *Enterobacter aerogenes*, *Influenza A virus*, [including][the Pandemic 2009][H1N1][Influenza A virus], *Rhinovirus type 37*, and *Human Immunodeficiency Virus (HIV) Type 1* [)]. Sanitizes hard non-porous non-food contact surfaces of *Staphylococcus aureus* and *Enterobacter aerogenes* in the presence of light or moderate soil load with a 30-second contact time.

{EPA Reg. No. 84683-4 Package Instructions}

{FOR CANISTER}

{OPTION 1}

TO OPEN PACKAGE: [Open lid and] pull out wipe [from center [of roll]]. [[The] next [sheet] [wipe] pops up automatically.] [When finished,] close lid to retain moisture. PULL WIPE FROM CENTER

{OPTION 2}

TO OPEN PACKAGE: Open the lid and pull [corner of] wipe from center of the roll. [Twist and] feed wipe through the guide, pulling it through to next perforation. Tear off wipe [at perforation] and close lid to retain moisture.

{OPTION 3}

TO OPEN PACKAGE: Flip open dispensing flap. Pull up corner of CENTER SHEET and thread through slot in lid. Replace lid and PULL WIPE AT AN ANGLE; the next sheet pops up automatically. When finished, close lid flap to retain moisture.

{OPTION 4}

[TO OPEN PACKAGE] [OR][TO REFILL]: Open [existing] [container] [canister]. Place [refill] [pouch] in [canister] [container]. Open refill [[by removing seal] [by peeling seal]]. Replace lid [on existing [canister] [container]].

{FOR TUB and POUCH REFILL:}

TO OPEN PACKAGE: Flip open dispensing flap and remove lid by lifting upward. Place [refill] [pouch] in tub. Open pouch by peeling back seal. Insert sheet through opening in lid. Replace lid. [The next sheet pops up automatically.] [When finished,] close lid flap to retain moisture.

{For pouch only:}

TO OPEN PACKAGE: Open pouch by peeling back seal. [When finished,] close to retain moisture.

{MASTER LABEL}

{All text in brackets [xxx] is optional & may or may not be included on a printed label.}

{All text in braces {xxx} is administrative communication & will not appear on a printed label.}

{For Refills:}

[TO OPEN PACKAGE] [OR] [TO REFILL]:

{OPTION 1}

[Open [existing] [container] [canister] according to label directions.] [Tear] open [[refill] [package] by [pulling on] [the] [tear strip] [removing seal] [pulling on the back] [seal] [tearing at notch.] Remove [one] refill [from refill package] [sleeve] [container] [pouch] [bag]. [Open refill [by pulling on] [the] [tear strip] [removing seal] [pulling on the back] [seal] [tearing at notch.]] [Turn upside down.] [Slide] [insert] [pre-moistened] [wipes] [refill] into [existing] [empty canister] [container.] Replace lid [on existing canister]. [Close] [reseal] [refill package] [sleeve] [container] [pouch] [bag.]

{OPTION 2}

Remove lid, insert wipes and replace lid. Pull out wipe [from center of roll.] [Next sheet pops up automatically.] Close lid to retain moisture.

{FOR “TO GO” PACKAGE}

{The icon is optional and will only appear on 10ct packs, with wipe size of 7” x 7.75”}

{OPTION 1}

TO OPEN PACKAGE: [Flip] [Pull] open dispensing flap. [Insert] [Pull] first wipe through opening in pouch. [When finished,] [snap] close [tightly] [to retain moisture] [to keep wipes moist] [to keep wipes from drying out].

{OPTION 2}

TO OPEN PACKAGE: [Flip] [Pull] open dispensing flap. Open pouch by peeling back [film] [inner seal]. Pull first wipe by grabbing center of wipe. When finished, [snap] close [tightly] [to retain moisture] [to keep wipes moist] [to keep wipes from drying out].

{REQUIRED Storage/Disposal Statement per PR Notice 2007-4 - for nonrefillable plastic canisters and tubs}

STORAGE [/] [AND] [DISPOSAL][:]

Dispose of wipe in trash after use. Do not flush. Tightly close lid between uses to retain moisture. Nonrefillable container. Do not reuse or refill this empty container. Offer empty container for recycling. [{Recycling Symbol}] If recycling is not available, discard in trash.

{REQUIRED Storage/Disposal Statement per PR Notice 2007-4 - proposed alternative language unique to a nonrefillable foil package type of container. This statement will be placed near the “end” or “bottom” of the product label. The close package statement will not be included on single wipe packages.}

STORAGE [/] [AND] DISPOSAL[:]

Dispose of wipe in trash after use. Do not flush. [Close package between uses to retain moisture.] Do not reuse this empty [foil] package. Discard [foil] package in trash. [Recycle the enclosed paper card.] [Card made from [100%] [post consumer] recycled paper.] [Please recycle [this card].]

**{EPA Reg. No. 84683-4
Directions for Use}**

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its label[ing]. For heavily soiled or greasy areas, pre-cleaning is required.

{Whenever medical devices are listed as applicable sites on the label, the following text box will be included as required by PR 94-4}

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

{The statement below may also be used as an alternative to the text box above, when medical settings appear on the label}

[This product is not for use on medical device surfaces]

{Required language for labels with HIV-1 efficacy claims.}

***KILLS HIV ON PRE-CLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS** in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with body fluids and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of human immunodeficiency virus Type 1 (HIV-1)(associated with AIDS).

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 ON SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS.

Personal Protection: Specific barrier protection items to be used when handling items soiled with blood or body fluids, are disposable latex gloves, gowns, masks and eye coverings.

Cleaning Procedure: Blood & other body fluids must be thoroughly cleaned from surfaces & objects before application of the disinfectant.

Disposal of Infectious Material: Blood & other body fluids must be autoclaved & disposed of according to federal, state & local regulations for infectious waste disposal.

Contact Time: Leave surface wet for 10 minutes.

{FOR DAILY (smooth texture) WIPES}

TO CLEAN: [1.] Wet the surface [with the wipe] [[&][and] wipe clean]. [For stubborn stains, let stand for a few minutes.]

TO SANITIZE [[AND] [&] DEODORIZE]: Use to sanitize/deodorize hard, nonporous non-food contact surfaces. Wipe surface; use enough wipes for treated surfaces to remain visibly wet for 30 seconds. Let surface dry. No rinsing or wiping is required. For highly soiled surfaces, clean excess dirt first.

{OPTION 1}

{MASTER LABEL}

{All text in brackets [xxx] is optional & may or may not be included on a printed label.}

{All text in braces {xxx} is administrative communication & will not appear on a printed label.}

TO DISINFECT [[AND] [&] DEODORIZE]: 1. Wet the surface [with the wipe] [(spot test for surface compatibility [first])]. 2. Leave visibly wet for 10 minutes. [Let surface] [Allow to air-] dry. No rinsing or wiping is required [(even on food contact surfaces)].

{OPTION 2}

TO DISINFECT [[AND] [&] DEODORIZE]: Use to disinfect hard, nonporous surfaces.

Wipe surface to be disinfected; use enough wipes for treated surface to remain visibly wet for 10 minutes. Let surface dry. No rinsing or wiping is required [(even on food contact surfaces).] For highly soiled surfaces, clean excess dirt first.

{FOR WEEKLY OR MONTHLY (medium texture wipes or rough texture wipes, respectively) WIPES}

TO CLEAN: Use the [textured] [scrubbing] side of the wipe to remove tough soils. Use the [soft][smooth] side to wipe dirt away. If the [textured] [scrubbing] side gets dirty, fold the wipe, keeping the dirty [textured] [scrubbing] side inside. Let surface dry. No rinsing or wiping is required [(even on food contact surfaces)].

TO SANITIZE [[AND] [&] DEODORIZE]: Use the [soft] [smooth] side of wipe to sanitize/deodorize hard, nonporous non-food contact surfaces. Wipe surface; use enough wipes for treated surfaces to remain wet for 30 seconds. Let surface dry. No rinsing or wiping is required [(even on food contact surfaces).] For highly soiled surfaces, clean excess dirt first.

TO DISINFECT [[AND] [&] DEODORIZE]: Use the [soft] [smooth] side of wipe to disinfect hard, nonporous surfaces. Wipe surface to be disinfected; use enough wipes for treated surfaces to remain visibly wet for 10 minutes. Let surface dry. No rinsing or wiping is required [(even on food contact surfaces).] For highly soiled surfaces, clean excess dirt first.

**{EPA Reg. No. 84683-4
OPTIONAL Statement & Table}**

This product has been demonstrated efficacy against the following specific organisms:

Organism	ATCC No.
Bacteria:	
<i>Pseudomonas aeruginosa</i>	15442
<i>Salmonella enterica</i>	10708
<i>Staphylococcus aureus</i>	6538
Methicillin Resistant <i>S. aureus</i> (MRSA)	33592
<i>Enterobacter aerogenes</i>	13048
Viruses:	
Influenza A virus	ATCC VR-544
Influenza A (H1N1) virus	VR-1469
Rhinovirus type 37	VR-1147
Human Immunodeficiency Virus (HIV) Type 1	(ATS Labs)

EMERGING VIRAL PATHOGEN CLAIM

For an emerging viral pathogen that is a/an...	...follow the directions for use for the following organisms on the label:
Enveloped virus	Rhinovirus type 37

{Emerging Pathogen Claims – This product meets the criteria for use against emerging enveloped viral pathogens when used in accordance with the use directions for Rhinovirus type 37. Per the Guidance to Registrants, these statements will only be permitted as non-label claims when emerging viral pathogen conditions are met.

The following statements shall be made only through the following communications outlets: technical literature distributed exclusively to health care facilities, physicians, nurses and public health officials, "1-800" consumer information services, social media sites and company websites (non-label related). These statements shall not appear on marketed (final print) product labels.}

- [Product name] has demonstrated effectiveness against viruses similar to [name of emerging virus] on hard, non-porous surfaces. Therefore, [product name] can be used against [name of emerging virus] when used in accordance with the directions for use against [name of supporting virus(es) from table above] on hard, non-porous surfaces. Refer to the [CDC or OIE] website at [pathogen-specific website address] for additional information.
- [Name of illness/outbreak] is caused by [name of emerging virus]. [Product name] kills similar viruses and therefore can be used against [name of emerging virus] when used in accordance with the directions for use against [name of supporting virus(es) from table above] on hard, non-porous surfaces. Refer to the [CDC or OIE] website at [website address] for additional information.
